

SHARE4GOOD

Mission

To turn every meme trade into real-world good: rewarding holders, supporting charity, and building a fun, transparent community that truly shares for good.

Vision

A global meme movement where trading and giving are one: SHARE4GOOD grows value, amplifies kindness, and inspires action, one trade at a time.

Meme-Friendly Core Goals

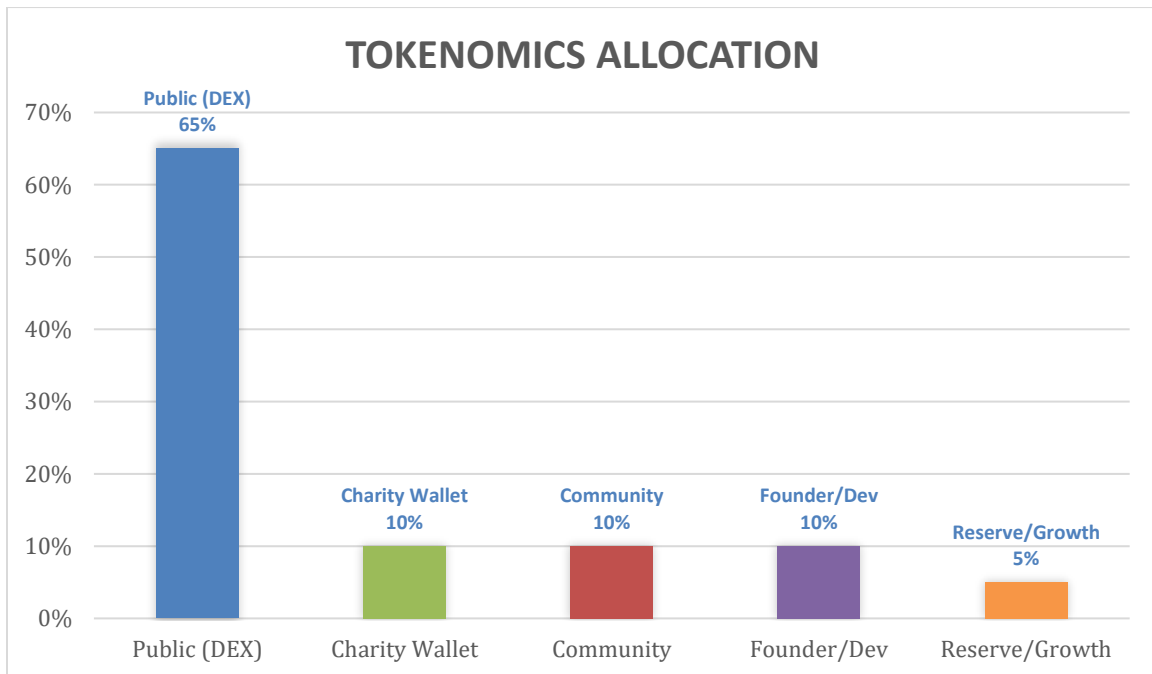

- Reward holders for participating and staying invested
- Fund real charity/impact causes transparently
- Bootstrap liquidity and a strong, committed community
- Keep everything simple, fair, and sustainable
- Make giving as fun as trading!

Tokenomics (Final)

Allocation	%	Amount	Description
Public (DEX/CEX)	65%	650,000,000	Trading, fair launch, liquidity
Charity Wallet	10%	100,000,000	On-chain donations (locked; voted by the community)

Community Rewards	10%	100,000,000	Airdrops, contests, staking, incentives
Founder/Dev	10%	100,000,000	Sole founder
Reserves/Growth	5%	50,000,000	CEX listings, partnerships, and growth

Total Supply: 1,000,000,000 SHARE4GOOD

Tokenomics Distribution Model

All tokenomics distributions are handled manually with full transparency; transaction proofs are published regularly.

Liquidity Security: 50% Burn, 50% Lock

50% of LP tokens are burned forever (permanently locking half of the initial liquidity in the pool). 50% of LP tokens are locked using a reputable Solana liquidity locker, providing flexibility for future upgrades/partnerships. All proofs and wallet addresses are published for transparency.

Honest Founder Statement

10% of SHARE4GOOD tokens are allocated to the sole founder (locked for the initial 3 months, and then released gradually). The founder's wallet is public, no tokens sold/staked/used before unlock, and all movements are disclosed for full alignment with the community.

Charity Governance

- Community votes on causes to receive donations, from founder-vetted, transparent options.
- All transactions and impact stories are posted publicly.
- Full proof and reports are/will be available on our site.

Roadmap Snapshot

1. Launch: Token live, website & socials, DEX launch
2. Growth: Meme contests, first charity vote & donation
3. Scaling: Staking/airdrops, partnerships, major listings
4. Expansion: Cross-chain, CEX, big impact events

Transparency Promise

All wallets, unlock schedules, and donations are public.
Monthly 'Good Vibes Reports' track progress and impact.
The founder is here for the long haul.
